استراتژی مبارزاتی حزب کمونیست (مائوئیست) افغانستان برای پیروزی انقلاب دموکراتیک نوین در کشور عبارت است از استراتژی جنگ خلق. (اساسنامه مصوب سومین کنگره سراسری حزب)

Condemn the warmongering efforts of U.S. imperialism, Zionist Israel, and their regional partners, oppose them, and resist them!

(February 28, 2026)

The war of aggression, terror, and brutality waged by the bloodthirsty U.S. imperialism and its regional partner Israel finally began on February 28, 2026, 62 days after the start of the first protests in Iran (December 28, 2025). This offensive, carried out through massive rocket strikes and heavy aerial bombardment, was launched under the joint operations “Lion’s Roar” and “Epic Roar.” These combined attacks mark the beginning of a broad war of global character.

Bloodthirsty U.S. imperialism, the number-one enemy of the peoples of the world and the primary source of international terrorism, which has left a dark record of cruelty, brutality, and the slaughter of innocent peoples, has once again revealed its true face. Unrestrained and predatory U.S. imperialism carries a history of atrocities: dropping atomic bombs on Japan, massacring millions of freedom-loving people in Vietnam, using napalm in Vietnam, the blatant military invasion and slaughter of defenseless Afghan people on October 7, 2001, the attack on Iraq in 2003, the invasion of Syria and the installation of a compliant government, the arrest of the president of Venezuela and the aerial bombardment of that country, unwavering support for Israel in the twelve-day war with Iran and the destruction of its nuclear facilities, the massacre of people in various parts of the world... and culminating in the February 28, 2026 attack on Iran. All of this demonstrates that no other country has interfered in the internal affairs of other nations as extensively as bloodthirsty U.S. imperialism. It has designed coups and counter-coups, overthrown elected governments by arming undemocratic forces and encouraging them to engage in terrorist activities.

It is U.S. imperialism that monitors the peoples of the world and, through economic sanctions and deliberately inducing hunger to the point of death for millions, coerces its opponents. It is the United States that promotes and enforces racism everywhere.

The military attack on Iran clearly demonstrates that they seek to secure their military, political, and economic foothold in this strategic region. They aim to maintain a strong presence in Central and South Asia in order to effectively control the unstable conditions in these two regions to their advantage. They want to display and further consolidate their brutal and coercive global dominance, instilling terror among the oppressed masses. By exporting war and crisis beyond their imperialist

fortresses, they aim to prevent uprisings among the masses and to suppress the spread of these uprisings even within their own strongholds.

On the other hand, more than forty-seven years have passed since the establishment of the clerical regime in Iran. During this period, the theocratic regime has spared no crime against the toiling masses of Iran. The reactionary theocratic state has gunned down revolutionary, national, and democratic forces, as well as the working masses and women who refused to submit to mandatory veiling; in the most recent statistics reported through the media, approximately 36,500 people were shot during the latest protests. The Islamic Republic is a fully theocratic and reactionary regime that has massacred Iran's revolutionary forces.

However, this does not mean that we support the punishment of Iran by the U.S. government or its vicious dog, Israel. The punishment of such a reactionary regime should have been carried out by the oppressed masses of Iran under the leadership of the proletariat and the vanguard party of the proletariat. But due to the weakness of the leftist movement, this did not occur. As a result, imperialism and its regional partner (Israel), pursuing their regional interests and hegemonic ambitions, initiated their aggressive and brutal war.

The Communist (Maoist) Party of Afghanistan condemns this aggressive war by U.S. imperialists and their regional partners in the strongest terms and is firmly determined, in close coordination with other Maoist parties, to raise a unified global voice of protest against imperialist wars of aggression and against the war machinery of the United States and Israel.

Down with the aggressor and terror-waging imperialists!
