

## At the call of the International supporting Committees of the Indian People's War in Galicia and Italy

Unfortunately, despite the international supporting call of the Indian People's War has reached at a crucial time at the level of proletarian internationalism, Afghanistan is witnessing the resurgence of the Taliban and the backstage games of the American occupiers, with the astonishing fall of the puppet regime and the Yankees on August 15, 2021. In the current situation, the contradiction of the imperialist essence in Afghanistan between the occupying imperialism of the United States and its allies on the one hand, and the imperialism of Russia and the social imperialism of China on the other hand is intense. What is preferable to the US imperialists is its hegemonic interests in Afghanistan and the region, and in view of the uncontrollable situation, we could not and will not be able to participate directly in our joint international struggle in support of the Indian People's War.

Nevertheless, the supporting Committee of the Indian People's War in Afghanistan will do its utmost to expose and condemn the crimes of the Indian government and to resist it! The reactionary government of India, led by Hindu fascists, has intensified its repression against the masses and the revolutionary people's war in India. The new and more brutal stage of the genocidal operation of the reactionary and fascist Hindu state called "Prahhaar" (3) have been setup to completely crush the Indian People's War and CPI(Maoist), as well as the repressive fascist policies of the peasants, Adivas, Dalits, Intellectuals, workers, religious minorities and against the people of Kashmir, Assam or Manipur, and other heinous crimes against humanity, and the guard dogs of the international human rights of institutions associated related to imperialist institutions are mostly silent on the atrocities of the reactionary government of India and its gross violation of human rights.

The perpetration of all these atrocities is reasoned to make India a safe haven for capitalism and extraction of profits and the accumulation of capital for multinational corporations and the feudal and comprador classes. The ongoing struggle and revolutionary people's war in India are part of the global struggle for new democracy, socialism and communism, and against semi-feudalism, capitalism and imperialism, and the sharp and winning edge of that struggle. It is the international responsibility of revolutionaries around the world to fight, expose and resist the crimes of the Indian government and the complicity of the imperialist powers, and to stand by the Indian revolutionary movement.

**comrades!**

**As we have repeatedly reminded, we reiterate emphatically that:**

“Over the years, especially since the Hamburg International Conference, the work and struggle in solidarity with the People's Revolutionary War in India has made some progress. But it really wasn't enough. The RIM must strive to build a strong global solidarity movement with the revolutionary people's war in India. We must make serious efforts to expand the unity and ensure the unification of all forces that can unite in building a broad global solidarity movement and capable of continuous and orderly political action. The RIM must make it difficult for the reactionary government of India to easily escape the responsibility of its atrocities against the masses, the imprisonment and murder of revolutionaries and its other heinous crimes against the people.”

Let us commit ourselves for building a strong global solidarity movement with the People's Revolutionary War in India and exposing and attacking the crimes of the Indian government and resisting it!

**Long live the People's Revolutionary War in India!**

**Long live the Communist Party of India (Maoist)!**

**Down the reactionary government of India!**

**the supporting Committee of the Indian People's War in Afghanistan**
